

IDP - Test Data & Executions

Main Confluence Page

- [Redis_PoC](#)

Execution Data

- Test execution data can be saved here: [idp_performance.xlsx](#)

Test Data

- JMeter/Blazemeter results can be saved and placed by script into: [Blazemeter Reports](#)
 - Make sure to include all necessary data points
 - Starting date/time
 - Applicable notes/servers
 - Script names
 - Throughput parameters
 - Public Blazemeter links (which will be available from Jenkins)

KPI Related Documentation

- All KPI calculation can be saved and placed by date into: [Report Documents](#)
- Template can be found here: [Templates](#)
 - Update file naming based on test execution date/time
 - Update Disclaimers for: DATE, PKCE THROUGHPUT, CLIENT THROUGHPUT
 - Update Test Results for actual values, status (Passed, Failed, Pending), and any notes
 - Copy in PKCE JMeter/Blazemeter results into associated sheet
 - Copy in Client JMeter/Blazemeter results into associated sheet
- Copy calculated KPI data into consolidated excel here: [PerfTest-1hr-stage1_consolidated.xlsx](#)
 - Create new sheets as necessary per day
