

00. AM Squad: Individual Onboarding

Page is about?

GS Automation Team – individual Onboarding Tracker

1. Venkatesh Mallela

2. Sagar Rath (05/21 to 08/29)

3. Dinesh Kumar (Starting 09/02/2025)

4. Sunil Godiyal (Starting 11/04/2025)

5. Priti Chaudhary (Starting 11/18/2025)

⚠️ All host aliases (sshrelaywt1,frogger) now point to the new server: gwtppsshrelay01 ⚠️

Automation Squad – Venkatesh Onboarding Tracker (Joining Date 04/30)

Owner: Swapnil Patil | Updated: 23 May 2025

Onboarding Area	Task Description	Status	Target Date	Notes / Blockers
VM Provisioning	VM + RDP credentials setup	Completed		
Task Assignments	Tracker setup by Swapnil for ISP Login Automation & KT Sessions	Completed		Assigned low-risk tasks for week 1
Outlook, Teams Access	Joined GS Teams channels, Outlook ready	Completed		
Jira + Tempo Access	Jira board (QA Automation Squad), Time logging (Tempo)	Completed		
Confluence Access	Full access to QA Automation Confluence space	Completed		
L:\ Drive & Shared Directory Access	Able to access UII resources, KT recordings, automation-env	Completed	02 May 2025	
Local Admin Access	Local Admin level access to laptop to install software	Completed		
Eclipse/IntelliJ IDE & Plugins	IntelliJ installed, plugins for TestNG, Cucumber installed	Completed		
Java, Maven, Ant	Java 17, Maven 3.9+, Ant 1.9.6 configured, path vars set	Completed	02 May 2025	
SQL Developer & DB Tools	SQL Developer & DB Tools	Completed		
Browser Drivers	ChromeDriver 135+ in automation-env	Completed	02 May 2025	
GitLab Setup	Access granted to Automation repo, code sync validated	Completed		Plugin validated in IntelliJ
Stage DB + Putty Setup (ssh relaywt1)	Port forwarding via Frogger, SQL Developer installed	In Progress	02 May 2025	RT raised, waiting for DB credentials need RT to get an access to sshrelaywt1
Local Env Setup	automation-env + variable setup (JAVA_HOME, MAVEN_HOME, etc.)	Completed	02 May 2025	
KT Sessions: Project & Env	Watched Project Onboarding, Prime, DB, Control-M recordings	In Progress	06 May 2025	Will revisit performance KT after DB access
?? Prime Framework Access & Build	QA-Resource, unite modules cloned & built	In Progress	02 May 2025	
Jenkins Dashboard Access	RT to DevOps submitted for access	In Progress	02 May 2025	Awaiting DevOps approval

QTest Access to few Projects	Qtest - Test Management tool access to create automated & manual test cases	In Progress		Create RT to request an access to qTest for following Projects - Automation Unite - Automation Astro - Astro - Unite Platform - Entity Management - GS-Delivery User Permission: mirror to Swapnil Patil.
Splunk + New Relic	Monitoring tool access (view dashboards, alerts setup)	Not Required		
AHA / Roadmap Viewer Access	Ticket submitted to mirror Henry, access granted to GS SFRP space	Not Required		
Performance Tools KT	Access to JMeter, BlazeMeter links shared	Not Required		Schedule next week

Automation Squad – Sagar R. Onboarding Tracker (Joining Date: Wed 05/21)

Owner: Swapnil Patil | Updated: 23 May 2025

Onboarding Area	Task Description	Status	Target Date	Notes / Blockers
VM Provisioning	VM + RDP credentials setup	Completed		
Task Assignments	Tracker setup, Access Requests, KT Sessions etc.	Completed		Assigned low-risk tasks for week 1
Outlook, Teams Access	Joined GS Teams channels, Outlook ready	Completed		Synced with the support team and they resolved the issue. Now i can access both so mark complete.
Jira + Tempo Access	Jira board (QA Automation Squad), Time logging (Tempo)	Completed		able to access the jira link ,2june i had confirmed i can access tempo so marking this as completed
Confluence Access	Full access to QA Automation Confluence space	Completed		able to access confluence
L:\ Drive & Shared Directory Access	Able to access UII resources, KT recordings, automation-env	Completed		
Local Admin Access	Local Admin level access to laptop to install software	Completed		Waiting on Anuj to approve
Eclipse/IntelliJ IDE & Plugins	IntelliJ installed, plugins for TestNG, Cucumber installed	Completed		Installed IntelliJ Installed cucumber, testng ,etc Refer to https://confluence.ascensus.com/x/cTrPEg
Java, Maven, Ant	Java 17, Maven 3.9+, Ant 1.9.6 configured, path vars set	In Progress		Installed java 17, Installed maven, ant, selenium, testng, chromedriver, Refer to https://confluence.ascensus.com/x/cTrPEg
Browser Drivers	ChromeDriver 135+ in automation-env	Completed		Refer to https://confluence.ascensus.com/x/cTrPEg
GitLab Setup	Access granted to Automation repo, code sync validated	Completed		Successfully cloned the project . Create Fresh Service Ticket Refer to GitLab Users Access
Stage DB + Putty Setup	Port forwarding via Frogger, SQL Developer installed	Completed		Database Access - Create Fresh Service ticket. For Putty & server access send email to ui-i-accessrt Note: Request access to Linux account access to gwtppsshrel ay01 server mirroring Swapnil Patil.
SQL Developer & DB Tools	SQL Developer & DB Tools	Completed		Support team reset the password but it doesnt work .I will follow up regarding that.
Local Env Setup	automation-env + variable setup (JAVA_HOME, MAVEN_HOME, etc.)	Completed		
KT Sessions: Project & Env	Watched Project Onboarding, Prime, DB, Control-M recordings	In Progress		Will revisit performance KT and other stuff after DB access
?? Prime Framework Access & Build	QA-Resource, unite modules cloned & built	In Progress		

Jenkins Dashboard Access	RT to DevOps submitted for access	In Progress		Awaiting DevOps approval
QTest Access to few Projects	Qtest - Test Management tool access to create automated & manual test cases	In Progress		Create RT to request an access to qTest for following Projects - Automation Unite - Automation Astro - Astro - Unite Platform - Entity Management - GS-Delivery User Permission: mirror to Swapnil Patil.
Splunk + New Relic	Monitoring tool access (view dashboards, alerts setup)	Not Required		
AHA / Roadmap Viewer Access	Ticket submitted to mirror Henry, access granted to GS SFRP space	Not Required		
Performance Tools KT	Access to JMeter, BlazeMeter links shared	Not Required		Schedule next week

Automation Squad – Dinesh Kumar Onboarding Tracker (Joining Date: Wed 09/02)

Owner: Swapnil Patil | Updated: 03 Aug 2025

Onboarding Area	Task Description	Status	Target Date	Notes / Blockers
VM Provisioning	VM + RDP credentials setup	Completed		if any issues with access then Create Fresh Service Ticket
Task Assignments	Tracker setup, Access Requests, KT Sessions etc.	In Progress		if any issues with access then Create Fresh Service Ticket
Outlook, Teams Access	Joined GS Teams channels, Outlook ready	Completed		if any issues with access then Create Fresh Service Ticket
Jira + Tempo Access	Jira board (QA Automation Squad), Time logging (Tempo)	Completed		Create Fresh Service Ticket
Confluence Access	Full access to QA Automation Confluence space	Completed		able to access confluence otherwise Create Fresh Service Ticket
L:\ Drive & Shared Directory Access	Able to access UII resources, KT recordings, automation-env	Completed		Create Access RT
Local Admin Access	Local Admin level access to laptop to install software	Completed		Create Fresh Service Ticket
Eclipse/IntelliJ IDE & Plugins	IntelliJ installed, plugins for TestNG, Cucumber installed	Completed		Installed IntelliJ Installed cucumber, testng etc. Refer to https://confluence.ascensus.com/x/cTrPEg
Java, Maven, Ant	Java 17, Maven 3.9+, Ant 1.9.6 configured, path vars set	Completed		Installed java 17, Installed maven, ant, selenium, testng, chromedriver, Refer to https://confluence.ascensus.com/x/cTrPEg
Browser Drivers	ChromeDriver 135+ in automation-env	Completed		Refer to https://confluence.ascensus.com/x/cTrPEg
GitLab Setup	Access granted to Automation repo, code sync validated	Completed		Successfully cloned the project . Create Fresh Service Ticket Refer to GitLab Users Access
Stage DB + Putty Setup	Port forwarding via Frogger, SQL Developer installed	Completed		- For Database Access - Create Fresh Service ticket. - For Putty & Unix Server access send email to uii-access@rt.acs529.com to create RT Ticket Note: Request access to Linux account access to gwtppsshrelay01 server & other alias like sshrelaywt1,frogger mirroring Swapnil Patil .
Oracle SQL Developer	Oracle SQL Developer & DB Tools	Completed		Download Oracle SQL developer latest version is fine but make sure its stable version
Local Env Setup	automation-env + variable setup (JAVA_HOME, MAVEN_HOME, etc.)	Completed		Refer to - General setup - https://confluence.ascensus.com/x/cTrPEg - IntelliJ setup - https://confluence.ascensus.com/x/BTvPEg

KT Sessions: Project & Env	Watched Project Onboarding, Prime, DB, Control-M recordings	Completed		Once local setup is done then i will schedule few Domain KT sessions
?? Prime Framework Access & Build	QA-Resource, unite modules cloned & built	Completed		This should be included as Gitlab access. But will go over what to do & don'ts
Jenkins Dashboard Access	RT to DevOps submitted for access	Completed		Optional, Awaiting DevOps approval
QTest Access to few Projects	Qtest - Test Management tool access to create automated & manual test cases	In Progress		Create Ticket (RT - send email to uii-access@rt.acs529.com to create RT Ticket) to request an access to qTest for following Projects - Automation Unite - Automation Astro - Astro - Unite Platform - Entity Management - GS-Delivery User Permission: mirror to Venkatesh Mallela.
Splunk + New Relic	Monitoring tool access (view dashboards, alerts setup)	Not Required		Optional
AHA / Roadmap Viewer Access	Ticket submitted to mirror Henry, access granted to GS SFRP space	Not Required		Optional
Performance Tools KT	Access to JMeter, BlazeMeter links shared	Not Required		Optional

Automation Squad – Thangamani Onboarding Tracker (Joining Date 04/30)

Owner: Nicholas Botvinnik | Updated: 29 Oct 2025

Onboarding Area	Task Description	Status	Target Date	Notes / Blockers
VM Provisioning	VM + RDP credentials setup	Completed		if any issues with access then Create Fresh Service Ticket
Task Assignments	Tracker setup, Access Requests, KT Sessions etc.	Completed		if any issues with access then Create Fresh Service Ticket
Outlook, Teams Access	Joined GS Teams channels, Outlook ready	Completed		if any issues with access then Create Fresh Service Ticket
Jira + Tempo Access	Jira board (QA Automation Squad), Time logging (Tempo)	Completed		Create Fresh Service Ticket
Confluence Access	Full access to QA Automation Confluence space	Completed		able to access confluence otherwise Create Fresh Service Ticket
L:\ Drive & Shared Directory Access	Able to access UII resources, KT recordings, automation-env	In Progress		Create Access RT
Local Admin Access	Local Admin level access to laptop to install software			Create Fresh Service Ticket
Eclipse/IntelliJ IDE & Plugins	IDE installed, plugins for TestNG, Cucumber installed			Installed IntelliJ Installed cucumber, testng etc. Refer to https://confluence.ascensus.com/x/cTrPEg
Visual Studio Code	IDE installed, plugins for TestNG, Cucumber installed			Installed IDE Installed cucumber, testng etc. Refer to Mobile Automation Setup (mobile only + SOE sections)
Java, Maven, Ant	Java 17, Maven 3.9.3+, Ant 1.9.6 configured, path vars set			Installed java 17, Installed maven, ant, selenium, testng, chromedriver, Refer to https://confluence.ascensus.com/x/cTrPEg
Browser Drivers	ChromeDriver 135+ in automation-env	Not Required		Refer to https://confluence.ascensus.com/x/cTrPEg
GitLab Setup	Access granted to Automation repo, code sync validated			Successfully cloned the project . Create Fresh Service Ticket Refer to GitLab Users Access

Stage DB + Putty Setup	Port forwarding via Frogger, SQL Developer installed			- For Database Access - Create Fresh Service ticket. - For Putty & Unix Server access send email to uii-access@rt.acs529.com to create RT Ticket Note: Request access to Linux account access to gwtppsshrelay01 server & other alias like sshrelaywt1,frogger mirroring Swapnil Patil.
Oracle SQL Developer	Oracle SQL Developer & DB Tools			Download Oracle SQL developer latest version is fine but make sure its stable version
Local Env Setup	automation-env + variable setup (JAVA_HOME, MAVEN_HOME, etc.)			Refer to - General setup - https://confluence.ascensus.com/x/cTrPEg - IntelliJ setup - https://confluence.ascensus.com/x/BTVPEg
KT Sessions: Project & Env	Watched Project: Onboarding, Prime, DB			Once local setup is done then i will schedule few Domain KT sessions
KT Sessions: Project - Mobile	Watched Project: Mobile			Once local setup is done then i will schedule few Domain KT sessions
Verify Access to BrowserStack + KT (App Live)	Verify access to https://www.browserstack.com/ and get familiar with its use			Username/password will be determined later (due to licensing)
?? Prime Framework Access & Build	QA-Resource, unite modules cloned & built			This should be included as Gitlab access. But will go over what to do & don'ts
Jenkins Dashboard Access	RT to DevOps submitted for access	Not Required		Optional, Awaiting DevOps approval
QTest Access to few Projects	Qtest - Test Management tool access to create automated & manual test cases			Create Ticket (RT - send email to uii-access@rt.acs529.com to create RT Ticket) to request an access to qTest for following Projects GS-Delivery User Permission: mirror to Swapnil Patil.
Splunk + New Relic	Monitoring tool access (view dashboards, alerts setup)	Not Required		Optional
AHA / Roadmap Viewer Access	Ticket submitted to mirror Henry, access granted to GS SFRP space	Not Required		Optional
Performance Tools KT	Access to JMeter, BlazeMeter links shared	Not Required		Optional

Automation Squad – Sunil Godiyal Onboarding Tracker (Joining Date: Wed 11/04)

Owner: Swapnil Patil | Updated: 04 Nov 2025

Onboarding Area	Task Description	Status	Target Date	Notes / Blockers
VM Provisioning	VM + RDP credentials setup	Completed		if any issues with access then Create Fresh Service Ticket

Automation Squad – Priti Choudhary Onboarding Tracker (Joining Date: Wed 11/18)

Owner: Swapnil Patil | Updated: 18 Nov 2025

Onboarding Area	Task Description	Status	Target Date	Notes / Blockers
VM Provisioning	VM + RDP credentials setup	Completed		if any issues with access then Create Fresh Service Ticket
Task Assignments	Tracker setup, Access Requests, KT Sessions etc.	In Progress		if any issues with access then Create Fresh Service Ticket
Outlook, Teams Access	Joined GS Teams channels, Outlook ready	Completed		if any issues with access then Create Fresh Service Ticket
Jira + Tempo Access	Jira board (QA Automation Squad), Time logging (Tempo)	Completed		Create Fresh Service Ticket- #SR-1226156
Confluence Access	Full access to QA Automation Confluence space	Completed		able to access confluence otherwise Create Fresh Service Ticket
L:\ Drive & Shared Directory Access	Able to access UII resources, KT recordings, automation-env	Completed		Create Fresh Service Ticket
Local Admin Access	Local Admin level access to laptop to install software	Completed		Create Fresh Service Ticket- #SR-1226125

Eclipse/IntelliJ IDE & Plugins	IntelliJ installed, plugins for TestNG, Cucumber installed	In Progress		Installed IntelliJ Installed plugins like cucumber, testng etc. Refer to https://confluence.ascensus.com/x/cTrPEg
Java, Maven, Ant	Java 17, Maven 3.9+, Ant 1.9.6 configured, path vars set	In Progress		Installed java 17, Installed maven, ant, selenium, testng, chromedriver, Refer to https://confluence.ascensus.com/x/cTrPEg
Browser Drivers	ChromeDriver 135+ in automation-env	In Progress		Refer to https://confluence.ascensus.com/x/cTrPEg
GitLab Setup	Access granted to Automation repo, code sync validated	Completed		Gitlab setup completed. Perf testing repo needs to be cloned. #Successfully cloned the project . Create Fresh Service Ticket- 2FA done. Refer to GitLab Users Access , 03a. GitLab: Setup & Project Cloning - Government Savings- Software Development. - Ascensus - Confluence
Stage DB + Putty Setup	Port forwarding via Frogger, SQL Developer installed	In Progress		- For Database Access - Create Fresh Service ticket. - For Putty & Unix Server access send email to uii-access@rt.acs529.com to create RT Ticket Note: Request access to Linux account access to gwtpsshrelay01 server & other alias like sshrelaywt1,frogger mirroring Swapnil Patil.
Oracle SQL Developer	Oracle SQL Developer & DB Tools	Completed		Download Oracle SQL developer latest version is fine but make sure its stable version
Local Env Setup	automation-env + variable setup (JAVA_HOME, MAVEN_HOME, etc.)	In Progress		Refer to - General setup - https://confluence.ascensus.com/x/cTrPEg - IntelliJ setup - https://confluence.ascensus.com/x/BTvPEg
KT Sessions: Project & Env	Watched Project Onboarding, Prime, DB, Control-M recordings	In Progress		Once local setup is done then i will schedule few Domain KT sessions
?? Prime Framework Access & Build	QA-Resource, unite modules cloned & built	In Progress		This should be included as Gitlab access.
Jenkins Dashboard Access	RT to DevOps submitted for access	Completed		Access received- QA admin can add user
QTest Access to few Projects	Qtest - Test Management tool access to create automated & manual test cases	In Progress		Create Ticket (RT - send email to uii-access@rt.acs529.com to create RT Ticket) to request an access to qTest for following Projects - Automation Unite - Automation Astro - Astro - Unite Platform - Entity Management - GS-Delivery User Permission: mirror to Venkatesh Mallela.
Jmeter, Blazemeter, Selenium Grid access	Check Accesses to Blazemeter account, selenium Grid etc	In Progress		
Splunk + New Relic	Monitoring tool access (view dashboards, alerts setup)	Completed		New Relic access received
AHA / Roadmap Viewer Access	Ticket submitted to mirror Henry, access granted to GS SFRP space	Not Required		Optional
Performance Tools KT	Access to JMeter, BlazeMeter links shared	In Progress		Optional
Whitelist Email & Phone number	Whitelist Email & Phone number to get OTPs or confirm emails or msgs			Create Fresh Service ticket to whitelist your Ascensus email & Phone number
