

1. Universal Enrollment – Automation Regression Suite (Prime Version 3, Stage 1)

Purpose

This module validates the **Universal Enrollment (UE)** flow for all **Direct and State-Specific 529 plans** under the **Prime V3 framework**. It ensures end-to-end coverage for enrollment creation, continuation, UPromise integration, multiple beneficiaries, promotional enrollments, and matching-grant programs.

The suite runs within the **GitLab + Maven + Nexus** ecosystem and supports unified enrollment logic across multiple plans.

Owner	QA Automation Team
Module	Universal Enrollment (member / front office)
Framework Version	Prime V3
Environment	Stage 1
Suite Name	Universal Enrollment Regression Test Suite – Stage 1 Environment
Suite File Path	prime-test-automation/unite/unite-universal-enrollment/bin/regression/daily/universal-enrollment-stage1.xml
Trigger	Manual / Scheduled via GitLab
Build Tool	Maven (clean test -Pstage1-ue-regression-test)
Artifact Repository	Nexus
Suite XML	suites/v3/universal-enrollment-stage1.xml
Parallelism	parallel="tests" thread-count="1" data-provider-thread-count="3"
Reporting	Surefire + TestNG HTML

Universal Enrollment suite at a glance

Question	Answer
What we run	Member Universal Enrollment: standard individual, continue/save-resume, multiple beneficiaries, Upromise, state-specific (PAG, NDD, DCD), first-step / sub-beneficiary flows, negatives.
When	As part of Stage 1 combined regression (runs before IDP in master suite).
What cases	26 test blocks — see tables below.
Pipeline	https://gitlab.com/ascensus-gs/products/depot/qa-automation/prime-test-automation/-/pipeline_schedules

Latest report summary (UE sub-suite, from combined HTML)

Metric	Value
Tests	26 tests
Methods	337 methods
Passed	320 passed
Failed	17 failed

Coverage summary

Attribute	Detail
Tests (XML)	26
Runner	Prime V3 — core.runner.ParallelFeatureRunner, core.listener.PrimeResourceManager
Tags	@regression and @dailyrun
Feature root	frontoffice/enrollment/common/feature/

Module & plan coverage (summary by theme)

Theme	Plans (traunch)	Primary feature files
Standard individual	NYD, MDD, NMD, IDD, IAD, NJD, MOD	UniversalEnrollmentPositive.feature
Ohio standard	OHD	UniversalEnrollmentPositiveOhio.feature
Continue / save & resume	NYD, MDD, NMD	UniversalContinueEnrollment.feature
Multiple beneficiaries	NYD, MDD	UniversalEnrollmentMultipleBeneficiaries.feature
Upromise	NYD, MDD, NMD	UniversalEnrollmentUpromise.feature
PAG / sub-bene	PAG	UniversalEnrollmentPagsp.feature, UniversalEnrollmentPagspSubBene.feature
Matching grant	NDD	UniversalEnrollmentMatchingGrant.feature
Promo code	DCD	UniversalEnrollmentPositivewithPromocode.feature
First step / sub-bene	ILD, NJD, NYD	UniversalEnrollmentFirstStep.feature, UniversalEnrollmentFirstStepSubBene.feature
Sub beneficiary	NMD	UniversalEnrollmentSubBene.feature
Negative	NYD, ILD	UniversalEnrollmentNegativeScenarios.feature

Per-row detail: see **Test scenarios** table. Fill *Scenario count* and *qTest mapping* from TestNG + qTest.

Test scenarios (from universal-enrollment-stage1.xml)

#	Test name	Traunch	Feature path
1	NYD_Standard_Individual_Enrollment	nyd	frontoffice/enrollment/common/feature/UniversalEnrollmentPositive.feature
2	MDD_Standard_Individual_Enrollment	mdd	frontoffice/enrollment/common/feature/UniversalEnrollmentPositive.feature
3	NMD_Standard_Individual_Enrollment	nmd	frontoffice/enrollment/common/feature/UniversalEnrollmentPositive.feature
4	IDD_Standard_Individual_Enrollment	idd	frontoffice/enrollment/common/feature/UniversalEnrollmentPositive.feature
5	IAD_Standard_Individual_Enrollment	iad	frontoffice/enrollment/common/feature/UniversalEnrollmentPositive.feature
6	NJD_Standard_Individual_Enrollment	njd	frontoffice/enrollment/common/feature/UniversalEnrollmentPositive.feature
7	MOD_Standard_Individual_Enrollment	mod	frontoffice/enrollment/common/feature/UniversalEnrollmentPositive.feature

15	MDD_Upromise_Integration_Validation	mdd	frontoffice/enrollment/common/feature/UniversalEnrollmentUpromise.feature
16	NMD_Upromise_Integration_Validation	nmd	frontoffice/enrollment/common/feature/UniversalEnrollmentUpromise.feature
17	PAG_State_Specific_Enrollment	pag	frontoffice/enrollment/common/feature/UniversalEnrollmentPagsp.feature
18	PAG_UE_Sub_Beneficiary_Flow	pag	frontoffice/enrollment/common/feature/UniversalEnrollmentPagspSubBene.feature

19	NDD_Matching_Grant_Program_Enrollment	ndd	frontoffice/enrollment/common/feature/UniversalEnrollmentMatchingGrant.feature
20	DCD_Promo_Code_Enrollment	dcd	frontoffice/enrollment/common/feature/UniversalEnrollmentPositivewithPromocode.feature
21	ILD_UniversalEnrollment_FirstStep	ild	frontoffice/enrollment/common/feature/UniversalEnrollmentFirstStep.feature
22	NJD_UniversalEnrollment_FirstStep_SubBene	njd	frontoffice/enrollment/common/feature/UniversalEnrollmentFirstStepSubBene.feature
23	NYD_UniversalEnrollment_FirstStep_SubBene	nyd	frontoffice/enrollment/common/feature/UniversalEnrollmentFirstStepSubBene.feature
24	NMD_UniversalEnrollment_SubBene	nmd	frontoffice/enrollment/common/feature/UniversalEnrollmentSubBene.feature
25	NYD_UniversalEnrollment_NegativeScenarios	nyd	frontoffice/enrollment/common/feature/UniversalEnrollmentNegativeScenarios.feature
26	ILD_UniversalEnrollment_NegativeScenarios	ild	frontoffice/enrollment/common/feature/UniversalEnrollmentNegativeScenarios.feature

What's covered

- **Standard enrollment** across multiple state direct plans; Ohio uses dedicated feature file.
- **Continue enrollment** (save, close, resume) for NYD, MDD, NMD.
- **Multiple beneficiaries** for NYD, MDD.
- **Upromise** integration for NYD, MDD, NMD.
- **Pennsylvania GSP** state-specific and sub-beneficiary flows.
- **North Dakota** matching grant; **D.C.** promo code enrollment.
- **First step** and **first step sub-beneficiary** (ILD, NJD, NYD).
- **Sub beneficiary** flow (NMD).
- **Negative scenarios** (NYD, ILD).

TestNG report (GitLab Pages — job artifacts)

The HTML report is published from the **scheduled regression** job's artifacts. **Only the job ID changes each run**; swap [JOB_ID] for the latest job from the pipeline.

Item	Value
Pattern	https://ascensus-gs.gitlab.io/-/products/depot/qa-automation/prime-test-automation/-/jobs/[JOB_ID]/artifacts/unite/unite-universal-enrollment/target/surefire-reports/index.html
Example (sample run)	Job #13573736461 report

How to find [JOB_ID]: Open the pipeline **Jobs** select **scheduled_regression_job** use the job ID from the URL or job page.

Notes

- CSR/dealer UE XMLs under suites/v3/universal-platform/ (if present) are **separate** from this **member** Stage 1 UE suite — do not mix without checking the pipeline.
- For failure analysis, filter the combined report by sub-suite **Universal Enrollment Regression Test Suite - Stage1 Environment**.
