

Accessing your Blazemeter account

- Navigate to <https://a.blazemeter.com/>
- Enter your email in the textbox

[LOG IN](#) [REGISTER](#)

 LOG IN WITH GOOGLE

OR

Using SAML? click here

LOG IN

☐ Remember me [Forgot Password?](#)

- Once you enter your email, SSO will automatically create an account in blazemeter. (Do not click using SAML link)
- By default, your accounts will be mapped to multiple workspaces. If you need a different workspace, reach out to [Unknown User \(mchiciak\)](#) to create you a new one.
- If the screen you see does not look like the below screen, please reach out to [Unknown User \(mchiciak\)](#).

The screenshot shows the BlazeMeter dashboard interface. At the top, there's a navigation bar with tabs: Home, Retirement-PSG (selected), Projects, Tests, Reports, and a button labeled 'Create'. Below the navigation bar, there's a section titled 'Retirement-PSG' which contains a dropdown menu for selecting workspaces. The dropdown menu lists three options: 'Workspaces' (with a search icon), 'Retirement-PSG' (highlighted with a green dot), and 'Default workspace'. To the right of the dropdown, there are filters for test results: 'All', 'Passed', 'Failed', and 'Not Set'. Below this, a table displays test results with columns: Name, Locations, Ran By, Executed, and Pass/Fail. The table shows five rows of test results, all with 'N/A' for locations and 'blazemeterusers@ascensus.com' for the user. The status column indicates 'Not set' for all tests.

Name	Locations	Ran By	Executed	Pass/Fail
QA - Retirement-RPS	N/A	blazemeterusers@ascensus.com	5 days ago	Not set
QA - 4.2.2635.1	N/A	blazemeterusers@ascensus.com	5 days ago	Not set
QA - 4.2.2620.1	N/A	blazemeterusers@ascensus.com	5 days ago	Not set
QA - 4.2.2620.1	N/A	blazemeterusers@ascensus.com	5 days ago	Not set
QA - 4.2.2620.1	N/A	blazemeterusers@ascensus.com	5 days ago	Not set
QA - 4.2.2620.1	N/A	blazemeterusers@ascensus.com	5 days ago	Not set
