

3. Performance Testing – KT & Learning Hub

Central learning tracker for onboarding, knowledge refresh, and tool mastery.

***Purpose:** Serve as a **step-by-step learning path + KT page** for engineers starting with Performance Testing. Combines **internal trainings**, **external free & paid courses**, and a **role-specific skill map**.*

1. Internal KT Videos (Ascensus Drive)

Topic	Link	Owner
Local Environment Setup	Watch Video	Swapnil Patil
Your First Performance Test (Hands-on)	Watch Video	Swapnil Patil
Helm & Kubernetes Walkthrough	Watch Video	Swapnil Patil
Universal Enrollment Perf Test Framework	Watch Video	Alex & Nick

2. External Free Learning (YouTube, Blogs, Docs)

JMeter (Free)

- [JMeter Full Course – Automation Step by Step](#)
- [JMeter Full Course - Master JMeter in 5 Hours](#)
- [Jmeter - Performance Testing Tool - By Naveen Automation Labs](#)
- [K6 - Performance/Load Testing tool](#)
- [Apache JMeter Official Docs](#)
- [Feather Wand - JMeter AI Plugin](#)

BlazeMeter (Free)

- [BlazeMeter - Performance Testing | End to End using JMeter](#)
- [BlazeMeter University – Free Basics](#)
- [Performance Tools and Utilities](#)

Taurus (bzt)

- [Taurus Crash Course – QA Insights](#)
- [Taurus Documentation](#)

Kubernetes + Rancher (Perf Focused)

- [K8s for Testers – Tech World with Nana](#)
- [Intro to Kubernetes and Rancher Online Training](#)
- [Rancher Intro & Cluster Setup](#)
- [blocked URL Kubernetes Master Class](#)
- [Learn k6 Series](#)

3. Premium Learning Paths (Paid/Certificate Courses)

Platform	Course Title	Link	Notes
Udemy	Master Performance Testing with JMeter & BlazeMeter	Link	Highly rated, beginner pro
LinkedIn	Performance Engineering by James Pulley	Link	Covers strategy + execution
Udemy	Kubernetes for Testers & QA	Link	Very practical, Rancher-ready
Pluralsight	Fundamentals of Load Testing with JMeter	Link	Hands-on scripting
TestAutomationU	Intro to JMeter (Free)	Link	Great structured track

4. Recommended Learning Plan (Role-Based)

Beginner / New Joiner (Week 1–2)

- Watch internal KT videos
- Run a local Taurus YAML test

- Read JMeter + Taurus basics
- Clone GitLab repo and run a dry test
- Schedule mock BlazeMeter run

Intermediate (Week 3–4)

- Study Jenkins integration
- Learn test orchestration in YAML
- Understand CI/CD flow with Taurus
- Analyze real New Relic graphs

Advanced (Week 5+)

- Design 2–3 real test plans
- Build GitLab-ready YAML repo
- Optimize JVM config & error tuning
- Lead a sprint execution & reporting
