

Weekly Roll-Up View (Child Section under Baseline Reports)

i Purpose

Summarize performance test results on a weekly cadence, highlight SLA compliance, and visualize trends for leadership.

1. Weekly SLA Compliance Table

Week (Ending)	# of Runs	SLA Pass	SLA Fail	Pass %	Key Notes
Sep 21, 2025	3	3	0	100%	Stable results, low error %
Sep 28, 2025	4	3	1	75%	1 run failed due to DB deadlock
Oct 05, 2025					
Oct 12, 2025					

2. SLA Metrics Trend (Weekly Avg)

Week (Ending)	Avg Response (ms)	90% Resp (ms)	Avg Throughput (hits/s)	Error %
Sep 21, 2025	410	1140	50.1	0.05%
Sep 28, 2025	520	1450	48.7	1.20%
Oct 05, 2025				
Oct 12, 2025				

3. Visual Roll-Up (Leadership Snapshot)

(Insert Confluence Chart Macro or paste from BlazeMeter export)

- **Line Chart – Response Times (Avg & 90th percentile)** over last 4 weeks.
- **Bar Chart – Pass vs Fail runs per week.**
- **Trend Chart – Throughput vs SLA target.**

4. Leadership Summary Section

A short narrative (2–3 sentences) at the bottom of each week’s roll-up:

Week Ending Sep 21, 2025:
All 3 runs passed SLA. Avg response ~410 ms, throughput stable at 50 hits/s. Error rates negligible. No deadlocks observed.

Week Ending Sep 28, 2025:
One endurance run failed due to DB deadlocks after 5 hrs. Avg response slightly degraded (~520 ms). Error % above threshold on 1 run. Fix escalation in progress with DBA team.
