

Automation QA – Home & Documentation Hub

 Page is about?

One-Stop Documentation Portal for QA Automation Excellence

Welcome to the central hub for all QA Automation knowledge, playbooks, best practices, onboarding, and execution standards. Whether you are a Senior SDET, Automation Engineer, QA Lead, or Director, this space is designed as your go-to reference for everything Automation QA.

Purpose

This documentation portal consolidates critical assets, workflows, tools, and strategies used by the Automation QA team. It ensures:

- Streamlined onboarding for new QA engineers.
- Standardized best practices across squads.
- Full traceability and visibility for test strategy and execution.
- Unified knowledge base for ongoing QA automation operations.

QA Automation JIRA Board

Navigation Overview

Here's what you'll find across the sections:

Section	Description
00. Master Onboarding Guide	Step-by-step orientation for new team members. Includes squad purpose, structure, and initial setup.
02. Environment Access & Setup	Covers local setup, IntelliJ, Eclipse, GitLab, and QA environments.
03. Tech Stack & Tools	Tools we use across squads: version control, IDEs, pipelines.
04. QA Standards Manual	Our best practices, DoD/DoR checklists, folder structures, and naming conventions.
05. Defect Management	How we manage bugs, escape defects, severity vs. priority, and triage strategy.
JIRA & qTest Docs	Deep dive into test case traceability, workflows, integration setup, and ticket linking.

Who Should Use This Hub

- **Senior SDETs & QA Engineers:** For framework references, onboarding, and test management.
- **QA Managers & Directors:** To evaluate traceability, metrics, test planning, and strategic oversight.
- **Automation Leads:** For squad setup, best practices rollout, and AI/ML-based enhancements.

Always Evolving

This documentation is a **living guide**—continuously updated based on retrospectives, tool upgrades, and team evolution. You're welcome to suggest updates or submit enhancements directly in the respective sections.
