

1. Enrollment – Automation Regression Suite (Prime Version 2)

What's Included

Purpose

This page documents the **Enrollment Automation Regression Suite** executed as part of the **daily Unite/Prime regression pipeline**. It validates **Member, CSR, and ABLE Enrollment flows** across multiple plans — **NYD, MID, NYA, NYB, and AKB**.

The suite ensures consistency and correctness of:

- NextGen member enrollment journeys
- CSR-assisted enrollments
- ABLE/NAA and Non-NAA enrollment flows
- Draft and multi-beneficiary enrollments

Suite Information

Attribute	Details
Owner	QA Automation Team
Environment	Stage 1
Suite Name	Regression Test Suite – Enrollments
Suite File Path	/qa-automation/unite/bin/regression/daily/stage1-enrollments.xml
Framework Version	Prime Version 2
Test Type	Cucumber-based End-to-End Functional Regression
Execution Time	Daily (Mon–Fri) @ 12:00 AM EST
Framework Tools	TestNG + Cucumber + Selenium
Tags Used	@regression, @dailyrun, @dailyrun-naa, @dailyrun-non-naa
Jenkins Job	STAGE1-Daily-Unite-Prime-Regression
Reports	TestNG HTML Reports
qTest Dashboard	Regression Dashboard – Enrollments

Execution Summary (Stage 1 – 10/20/2025)

Metric	Count / Status
Total Scenarios (Methods)	29
Feature Files	6
Test Classes	10
Execution Duration	~3 hours
Plans Covered	NYD, MID, NYA, NYB, AKB
Runner Type	Parallel & Sequential (Hybrid)

Module & Plan Coverage

Plan	Flow Type	Feature File	Scenario Count	qTest Mapping	Tags
------	-----------	--------------	----------------	---------------	------

NYD	Direct Member – NextGen Positive	NextGenEnrollmentPositive.feature	6	TR-8281794	@regression,@dailyrun
NYD	Multiple Beneficiaries	NextGenEnrollmentMultipleBeneficiary.feature	3	TR-8281817	@regression,@dailyrun
MID	Direct Member – NextGen Positive	T100_NextGenEnrollmentPositive.feature	3	TR-8281794	@regression,@dailyrun
MID	Multiple Beneficiaries	T101_NextGenEnrollmentMultipleBeneficiary.feature	2	TR-8281817	@regression,@dailyrun
MID	Direct CSR Enrollment	G100_CsrEnrollmentPositive.feature	2	TR-8281795	@regression,@dailyrun
NYA	Advisor CSR – Single & Subsequent	G100_CsrEnrollmentPositive.feature	2	TR-8281795	@regression,@dailyrun
AKB	NAA ABL E Enrollment – Positive	T100_NAA_EnrollmentPositive.feature	3	TR-8281796–99	@regression,@dailyrun-naa
AKB	ABLE Save as Draft – Self	T100_NAA_EnrollmentSaveAsDraft.feature	2	TR-8281815–16	@regression,@dailyrun
NYB	Non-NAA ABL E – Positive	T100_NAA_EnrollmentPositive.feature	3	TR-8281811–14	@regression,@dailyrun-non-naa
NYB	Non-NAA ABL E Save as Draft – Self	T100_NAA_EnrollmentSaveAsDraft.feature	3	TR-8281815–16	@regression,@dailyrun

Scenario Highlights

Scenario	Flow Type / Plan
NYD/MID NextGen Enrollment with Trusted Contact	Member Enrollment
NYD/MID NextGen Enrollment by Payroll	Member Enrollment
NYD/MID Multiple Beneficiaries (AIP / Check)	Multi-Beneficiary
MID CSR Enrollment	CSR Enrollment
AKB ABL E NAA / Save As Draft	ABLE (NAA)
NYB Non-NAA ABL E / Save As Draft	ABLE (Non-NAA)
ABLE Parent / Authorized Legal / Conservator	ABLE Consortium

Automation Highlights

- **End-to-End enrollment coverage** across all major plan types (529 & ABL E).
- **Hybrid execution** using both ParallelFeatureRunner and FeatureRunner.
- Validates **AIP**, **Payroll**, **Check**, and **Trusted Contact** enrollment types.
- Includes **multi-beneficiary** and **save-as-draft** scenarios.
- Each plan mapped to **qTest IDs** for traceability.
- Automatic **screenshot capture and log trace** via failTestCaseWithScreenshot().
- Uses **Unite Stage1 DB** for consistent test data.

Observations / Issues

Area	Observation / Status
MID Multiple Beneficiaries	Failing due to beneficiary SSN duplication (known data defect).
NYD Multiple Beneficiaries – Check	Timeout observed in CSR login sequence.
Parallelization Stability	Stable in 3-thread mode; recommended to scale cautiously.
Test Data Maintenance	Needs cleanup for reused ABL E records weekly.

Recommendations & Next Steps

- Extend coverage to include **Legacy Enrollment (Pre-NextGen)** and **Universal Enrollment (UE)** modules.
- Create **CSR ABL E Enrollment** extension using NAA test class base.
- Add **Negative Enrollment flows** (invalid SSN, DOB mismatch, incomplete address).
- Implement **data-driven validations** for fund mapping and eligibility criteria.

- Schedule **weekly qTest alignment reviews** for mapping consistency.

Maintenance Guidelines

Frequency	Owner	Action
Daily	Offshore QA Team	Review regression execution and triage flakiness.
Weekly	SDET Lead	Analyze retry logs, flakiness trends, and DB sync.
Monthly	QA Manager	Audit qTest traceability and Jenkins stability.
Quarterly	QA Architect	Integrate new enrollment modules and maintain reusable step libraries.
